0.12 m<sup>3</sup>  
Operating mass  
3855 kg

# SANY

## For challenging tasks, you need a first-class partner

Quality comes from experience. And from new ideas. This is why we combine these two crucial factors at SANY. This is because we are one of the world's leading producers, having sold more than **250 000** excavators in **10 years**. This means that you can always rely on sophisticated products that have been tried and tested in practice. An impressive **5–7%** of our annual turnover is dedicated to research and development. This is why we give you not only our word, but also our extraordinary **five-year warranty** as a guarantee of how powerful and robust our products are.

### SY35U HARD FACTS

Max. bucket digging force  
30.4 kN (ISO)

Max. arm digging force  
18.2 kN (ISO)

Swingspeed  
9 rpm

Max. travel speed  
4.5 km/h

## GREAT PERFORMANCE CAN BE SO SMALL

The SANY SY35U short-tail-swing excavator is a little powerhouse. Its compact dimensions make it the perfect tool wherever power and manoeuvrability need to come together. Versatility is one of the great strengths of this „little“ machine. As a true all-purpose machine, it can also be equipped with powerful attachments such as a hammer or a grapple. It thus provides maximum versatility in gala

construction as well as in smaller demolition and civil engineering works, which pays off every day. Especially in the city, where there is usually little space available on construction sites, the short tail concept makes it the ideal solution for many challenges that have to be overcome every day.

\* Applicable in certain markets, please check with your local dealer.

## ECONOMY

# LESS IS MORE – AT LEAST IN TERMS OF OPERATING COSTS

The SY35U pays for itself. A versatile workhorse, it is a future-proof investment in performance, reliability and productivity. With a complete package of comprehensive technology, developed for maximum profitability.

## QUALITY

**Robust and durable** – the most important protective elements and reinforcements as well as all access panels parts are made of high-quality metal, ideal for tough use in the construction industry.

## DIMENSIONS

**Compact and powerful** – on the one hand a short-tail-swing excavator with small dimensions, on the other hand a small powerhouse that offers exceptional performance in its category. For quick and efficient work even in confined circumstances.

## USER EXPERIENCE

**Extremely comfortable** – from easy access to the comfortable seat and the ergonomically designed controls, the driver can look forward to maximum comfort.

## SAFETY

**No compromise** – the SY35U is fully equipped for precise, safe working even under extreme application conditions – No compromise when it comes to safety.

## COMPONENTS

**Quality as standard** – the SY35U already comes with extensive features as standard. This can be upgraded with additional special options and adapted to individual requirements.

## ECONOMY

**Economically impressive** – with low fuel consumption, straightforward maintenance, low investment costs, the SY35U offers an impressive price-performance ratio in every respect.

## ECONOMY

## Efficiency or performance? Why should you have to choose?

The times when you had to pay for high performance with extremely high operating costs are over. The SY35U combines exemplary cost-effectiveness and performance. The modern drive and the load-sensing hydraulic system with variable delivery rate are designed for extremely low fuel consumption in compliance with the strict emission standard 5. With two work programs to choose from, the performance of the machine can also be specifically optimised for the task at hand.

## Absolute reliability – for peace of mind!

SANY's five-year warranty\* gives you the assurance that you can fully count on your equipment.

\* With participating partners

## QUALITY

## Fully resilient – metal covers

Durability and robustness are standard features on all SANY mini excavators. For example, panels are made of metal. This makes them particularly robust – and if an accident happens during the tough everyday work on a construction site, it can usually be straightened out again quickly. Furthermore, all maintenance access points are lockable and thus offer additional protection for the interior.

USER EXPERIENCE

**Maintenance and servicing made easy**

Carry out maintenance and inspections quickly and reliably – no problem with SANY’s sophisticated service concept, where each part can be maintained from ground level. The generously sized bonnets ensure quick and easy access to all maintenance-related components. The central lubrication points enables a central supply to various bearings. In this machine, for example, the entire slewing ring can be conveniently lubricated through an opening in the upper structure.

COMPONENTS

**Many good things – from the ground up**

Whether it is the engine from Yanmar, the hydraulic system from Casappa or the ground drive from Nachi, the machine is distinguished by its many brand-name components and the high quality associated with them.

**Our highlights – the added benefits SANY offers you:**

- + Air conditioning system
- + Large display
- + LED work lighting
- + Cab or canopy
- + Load-sensing hydraulic system
- + Emission standard 5

USER EXPERIENCE

**FOCUS ON DRIVER COMFORT**

The generously designed cab offers operating comfort geared to practical use. For many people, it is the most important component: The comfortable driver’s seat. The armrests can be adapted to any body size because they can be easily adjusted in height and thus make fatigue-free working possible. Special rubber dampers reduce vibrations and working movements. Ergonomically arranged controls round off the overall package.

You have everything in view with the large, central display, which shows all important data and values clearly and well arranged. In addition to the basic information, the working mode, ground speed or attachment can also be set here. The next planned maintenance is also stored in the menu.

SAFETY

**What is important must be protected**

Safety for people and machines is ensured here not only by warning devices such as the standard rotating warning beacon and the travel alarm. The boom cylinder is also protected by a metal guarding, which prevents major damage to the cylinder.

USER EXPERIENCE

**Operator comfort is key**

The standard air conditioning system is a real novelty in its class, so that the driver always keeps a cool head.

DIMENSIONS

**Perfect stability – in every situation**

The track width of 1420 mm, the low centre of gravity and the well thought-out mass distribution give the SY35U first-class stability – even when working at maximum horizontal reach and in extreme conditions. At the same time, the compact short tail causes only a slight shift in the centre of gravity, even when the upper structure is swivelled. The swing boom ensures an even wider range of applications and makes it possible to work comfortably and safely parallel to building boundaries of any kind.

ECONOMY

**Little things make all the difference – open to everything**

For a full view, the SY35U is also available as a canopy version. It offers a perfect view outside of the work area – naturally in compliance with the current TOPS specifications.

ENGINE

Model	YANMAR 3TNV88F
Typ	Water-cooled four-stroke diesel engine with turbulence chamber fuel injection
Exhaust emissions	Stage V
Rated power	18.2 kW / 2 400 rpm
Max. torque	94.2 Nm / 1 320 rpm
Displacement	1 642 ccm
Batteries	1 × 12 V / 80 Ah

HYDRAULIC SYSTEM

Mainpump	Variable displacement axial piston pump
Max. oilflow	88 l/min
Travelmotor	Variable displacement axial piston motor
Rotation device	Axial piston motor

SERVICE REFILL CAPACITIES

Fuel tank	40 l
Engine coolant	6.7 l
Engine oil	6.7 l
Drive (per side)	0.7 l
Hydraulicsystem	45 l
Hydraulic oil tank	40 l

PERFORMANCE

Swingspeed	9 rpm
Max. travel speed	High 4.5 km/h, slow 2.2 km/h
Max. travel force	42.5 kN
Gradeability	30°
Bucket capacity	0.12 m³
Groundpressure	0.32 kg/cm²
Bucket digging force ISO	30.4 kN
Arm digging force ISO	18.2 kN

OPERATING MASS

SY35U	3 855 kg
-------	----------

UNDER AND UPPER STRUCTURE

Boom length	2 540 mm
Arm length	1 400 mm
Bottomrollers	4
Rotation device	Axial piston motor with planetary gear running in oil bath and single-row slewing ring. Spring-loaded slewing gear parking brake, hydraulically released.
Undercarriage	Reinforced lower structure with larger dimensions. Welded drive frame in box design made of special material. Side frame welded to the drive frame.

RELIEF VALVE SETTINGS

Implement circuit	245 bar
Swing circuit	206 bar
Travle circuit	245 bar
Pilot pressure	35 bar

LIFTING CAPACITIES OF LOWER DOZER BLADE

 Load point height	Radius				Digging reach	
	2.0 m / 6.6 ft	3.0 m / 9.8 ft	4.0 m / 13.1 ft		Maximal	
4.0 m kg					803	660
13.1 ft lb					1 767	1 452

DIMENSIONS (TRANSPORT)

A	Transport length	4 915 mm
B	Transport width	1 720 mm
C	Upperstructure carriage	1 548 mm
D	Height over cabin/TOPS	2 515 mm
E	Height of Boom – transport	1 800 mm
F	Overall length of crawler	2 155 mm
G	Tail length	860 mm
H	Track gauge	1 420 mm
I	Undercarriage width (blade)	1 720 mm
J	Horizontal distance to blade	1 500 mm
K	Blade height	350 mm
L	Track height	520 mm
M	Track pads width	300 mm
N	Min. ground clearance	295 mm
O	Counterweigh clearance	560 mm
P	Engine cover height	1 550 mm
Q	Tail swing radius	860 mm
R	Center distance of tumblers	1 670 mm

WORKING AREA

A	Max. digging reach	5 465 mm
B	Max. digging depth	3 105 mm
C	Max. digging height	4 855 mm
D	Max. dumping height	3 460 mm
E	Min. dumping height	1 210 mm
F	Max. vertical digging depth	2 700 mm
G	Overall height over arm by min. swing radius	3 690 mm
H	Swing radius by max. boomswing (L)	2 000 mm
	Swing radius by max. boomswing (R)	2 160 mm
	Min. swing radius	2 420 mm
I	Max. clearance when blade up	375 mm
J	Max. depth of blade down	370 mm
K	Offset boom (L)	800 mm
	Offset boom (R)	550 mm
	Max. boom-swing angle (L)	57°
	Max. boom-swing angle (R)	63°

The SY35U – already well equipped with high-quality features as standard

Productive and concentrated work is only possible with the right equipment. The SY35U leaves practically nothing to be desired here.

OPERATORS COMFORT / CABIN

Heater	●
Manual air condition system	●
Radio and speaker	●
Armrests (adjustable)	●
12v outlets	●
Wiper	●
Sprayer f. wiper	●

A SERVICE YOU CAN RELY ON

Just as we do with our excavators, we also demand high quality and reliability of our service products. This underlines our equipment's performance in terms of their durability and their excellent price-performance ratio. After all, maintenance is crucial

for efficiency, cost-effectiveness and safety. Your SANY dealer is happy to help you with a comprehensive range of services to ensure that your machine continues operating efficiently in the long term.

SANY – flexible, fast and always there for you

Rapid assistance, tailored advice and a reliable supply of original parts – that is what we mean by a premium service.

QLD

The added benefits SANY offers you:

- + Fast supply due to central located parts warehouses
- + More than 15,000 spare parts to make your machine highly reliable
- + Expert knowledge for optimal supply for your machine
- + Thanks to SANY's special training programme, our dealers are always kept up-to-date so that they can face all technical challenges.

Parts supply – quick and reliable

With the purchase of a SANY mini excavator you have made an investment in the future. Fast availability of spare parts is your guarantee of minimal downtimes and failure times.

Detailed information in black and white

Handbooks and documents are available for all SANY mini excavators, and these can help you with operation, maintenance, servicing and repairs. These include operating and maintenance instructions and technical specifications.

# THE LITTLE ONE WHO OVERCOMES BIG THINGS

Precise results and reliable high performance, getting down to work even in confined spaces – the SY35U offers everything you expect from a mini excavator. It is robust, easy to use and, thanks to its excellent performance data, suitable for all types of excavation work.

## ROBUST AND DURABLE

The most important protective elements and reinforcements as well as all cladding parts are made of **robust metal**. **Robot-manufactured weld seams** guarantee a long service life under all conditions.

## EXTREMELY COMFORTABLE

Impressively simple control thanks to the **large display** and the **various working modes** – combined with the comfort of an **air conditioning system**.

## NO COMPROMISE

In order to provide **the best possible protection for both people and machines**, devices such as cylinder guard plates are already integrated. It goes without saying that the platform is **TOPS and OPG-tested**

## COMPACT POWER

In its performance class, the SY35U is an outstanding powerhouse with the small dimensions of a short-tail swing excavator. The swivel bracket further increases flexibility.

## ECONOMIC

The low **fuel consumption in compliance with emission standard 5**, the intelligent load-sensing hydraulic system and the option of purchasing the SY35U as a canopy are all impressive as a complete package with an excellent price-performance ratio.

## QUALITY AS STANDARD

**High-quality components** from brand manufacturers guarantee top performance and a high level of operational safety – also for the **extensive standard equipment**, which includes several **LED work lights**.

## TECHNICAL HIGHLIGHTS

Engine	YANMAR 3TNV88F
Rated power	18.2 kW / 2 400 rpm
Max. torque	94.2 Nm / 1 320 rpm
Max. travel speed	4.5 km/h
Swingspeed	9 rpm
Mainpump	Variable displ. axial piston pump
Max. oilflow	88 l/min

Not all products are available in all markets. As part of our continuous improvement process, we reserve the right to modify specifications and designs without giving prior notice. The figures may contain additional options.
